Cision® Acquires PRIME Research

Hello Nancy,

I am excited to announce that *Cision® has signed a definitive agreement to acquire PRIME Research*, a global leader in media measurement services – enhancing Cision's role as a leader of

software and services for communications professionals. This acquisition furthers Cision's goal of becoming the one-stop provider for brands who want to identify their ideal influencers, craft engaging campaigns, and attribute meaningful value to those campaigns. It also bolsters the business value of the Cision Communications Cloud®, our all-in-one platform for communicators.

Combining the expertise of the two companies will improve our ability to help communicators transform their overall media mix to deliver greater value and, of increasing importance, better measure the ROI of their earned media efforts. Some of the largest brands in the world rely on both Cision and PRIME to deliver on that measurement challenge.

PRIME is a global company with offices in Europe, North American and Asia-Pacific. They have over 500 clients and service some of the world's most prestigious brands such as MasterCard, Jaguar and Honda. They bring to Cision additional capabilities with respect to real-time monitoring and analysis across digital, print, TV, and online news. It also includes a wide range of social media outlets, including Twitter, Facebook, Google+, YouTube, blogs, forums, WeChat and Weibo. PRIME provides clients with a highly customizable dashboard for their news and media monitoring 24 hours a day. In addition to its global reach, PRIME has deep industry expertise across many different verticals including, automotive, retail and technology. The IP and know-how developed through gaining expertise within these verticals will be made available to all Cision customers.

Today's announcement comes on the heels of Cision's acquisition of CEDROM-SNi Inc., a firm specializing in digital media monitoring solutions. Stay tuned for future announcements that will further detail the many ways these acquisitions will benefit you as we integrate additional capabilities into the Cision Communications Cloud platform.

To learn more about the acquisition or Cision Communications Cloud, please contact us at executivecommunications@cision.com or visit cision.com.

Best,
Kevin Akeroyd
